Dear Sirs:-

We herewith beg to hand you a sample of some Bank shares which we received from Manaos. Our customer wishes a price on a lot of 10,000 and one of 20,000. He further instructs us that while the printing is to be identical as per sample, you may make any modification in the design which will improve it, but the same must always be plain. They also wish the border substituted by one not so heavy, and prettier, the printing to be exactly the same as in the specimen.

In case the order is given, the numbers will have to start from one up. He further remarks that the paper must not be heavier nor have more body than the sample, on account of the heavy duties which this has to pay, and to which we call your kind attention.

Yours very truly,

Dear Sirs:-

In reference to your quotation of Aug. 9th, our friends in Brazil now write us the following, to which we call your special attention;

> "Kindly send us as soon as possible a specimen of the bond so that we may see the style they propose sending; but at the price quoted, taking into consideration the duties we would have to pay, makes them very expensive. Should we decide not to place the order you will please debit us with any charges attending the same."

Our customer further states that if the sample suits him he will cable us an order for 20,000 with the understanding that they must be shipped not later than the 22d of November. If you will furnish us with the sample required not later than the 23d inst we can catch the outgoing mail, so that we ought to have a cable reply by the 16th or 18th of October. We mention these dates for your guidance so that you may see if the time allowed would enable you to get the order ready by the appointed date.

We herewith enclose the sample copy, and would be obliged if you would send us your samples, as well as the style of paper you propose using, as soon as possible.

We would also like to know if, in view of what our customer writes, you could make any reduction in the price quoted us, viz,

Gentlemen:-

We are in receipt of your favor of the 25th inst referring to our order for 20,000 bonds for the Banco Amazonense, and are somewhat surprised that you now state it is a remarkably short time . If you will refer to our letter of Sept. 19th, we told you at the time we wanted your quotation onthe bonds and they were to be shipped not later than the 22d of November.

It is absolutely necessary that these bonds arrive there and are despatched from the Custom House and are in the Bank's possession not later than January 1st, 1905. If we miss this steamer it will be too late, as the next steamer will only sail on the 15th of December.

We trust in view of our explanation you will see the trouble and predicament we will be in if the order is not filled by the above date, and trust you will avoid this by having the bonds ready not later than November 22d, as specified in our letter.
